GO_Molecular_Function_2021
hydrolase activity, hydrolyzing N-glycosyl compounds (GO:0016799)
adrenergic receptor binding (GO:0031690)
signal sequence binding (GO:0005048)
nucleoside-triphosphatase activity (GO:0017111)
G protein-coupled amine receptor activity (GO:0008227)
carboxypeptidase activity (GO:0004180)
G protein-coupled serotonin receptor activity (GO:0004993)
serotonin receptor activity (GO:0099589)
signaling receptor complex adaptor activity (GO:0030159)
GTPase activity (GO:0003924)
