

# GO\_Biological\_Process\_2021

positive regulation of proteolysis involved in cellular protein catabolic process (GO:1903052)

endocardial cell differentiation (GO:0060956)

negative regulation of transport (GO:0051051)

ERBB signaling pathway (GO:0038127)

peptidyl-tyrosine phosphorylation (GO:0018108)

transmembrane receptor protein tyrosine kinase signaling pathway (GO:0007169)

gland development (GO:0048732)

aggresome assembly (GO:0070842)

alpha-beta T cell differentiation (GO:0046632)

cardiac endothelial cell differentiation (GO:0003348)
