GO_Biological_Process_2021
ERBB signaling pathway (GO:0038127)
regulation of protein sumoylation (GO:0033233)
cardiac muscle cell myoblast differentiation (GO:0060379)
adipose tissue development (GO:0060612)
ERBB2 signaling pathway (GO:0038128)
epidermal growth factor receptor signaling pathway (GO:0007173)
gland development (GO:0048732)
positive regulation of protein kinase C activity (GO:1900020)
glutathione transport (GO:0034635)
response to denervation involved in regulation of muscle adaptation (GO:0014894)
