GO_Biological_Process_2021
collagen fibril organization (GO:0030199)
pyrimidine-containing compound metabolic process (GO:0072527)
negative regulation of mast cell activation involved in immune response (GO:0033007)
collagen-activated tyrosine kinase receptor signaling pathway (GO:0038063)
extracellular matrix organization (GO:0030198)
negative regulation of mast cell activation (GO:0033004)
negative regulation of angiogenesis (GO:0016525)
axonogenesis (GO:0007409)
nucleoside triphosphate catabolic process (GO:0009143)
negative regulation of blood vessel morphogenesis (GO:2000181)
