GO_Biological_Process_2021
alpha-beta T cell differentiation (GO:0046632)
regulation of cytoplasmic translation (GO:2000765)
establishment of mitochondrion localization, microtubule-mediated (GO:0034643)
T-tubule organization (GO:0033292)
serine transport (GO:0032329)
gamma-delta T cell activation (GO:0046629)
positive regulation of cytoplasmic translation (GO:2000767)
skeletal muscle tissue regeneration (GO:0043403)
ventricular cardiac muscle cell membrane repolarization (GO:0099625)
positive regulation of defense response to bacterium (GO:1900426)
