GO_Biological_Process_2021
heparan sulfate proteoglycan biosynthetic process (GO:0015012)
heparan sulfate proteoglycan metabolic process (GO:0030201)
heparan sulfate proteoglycan biosynthetic process, polysaccharide chain biosynthetic process (GO:0015014)
positive regulation of trophoblast cell migration (GO:1901165)
aminoglycan biosynthetic process (GO:0006023)
glycosaminoglycan metabolic process (GO:0030203)
regulation of homophilic cell adhesion (GO:1903385)
cell migration involved in gastrulation (GO:0042074)
apoptotic chromosome condensation (GO:0030263)
positive regulation of focal adhesion disassembly (GO:0120183)
