GO_Biological_Process_2021
regulation of focal adhesion assembly (GO:0051893)
MAPK cascade (GO:0000165)
gland development (GO:0048732)
endocardial cell differentiation (GO:0060956)
positive regulation of macrophage proliferation (GO:0120041)
cardiac endothelial cell differentiation (GO:0003348)
positive regulation of protein kinase C activity (GO:1900020)
regulation of cell-matrix adhesion (GO:0001952)
positive regulation of cell motility (GO:2000147)
ERBB signaling pathway (GO:0038127)
