GO_Biological_Process_2021
collagen fibril organization (GO:0030199)
regulation of protein kinase C activity (GO:1900019)
mRNA transcription by RNA polymerase II (GO:0042789)
positive regulation of cell motility (GO:2000147)
positive regulation of cell migration (GO:0030335)
neural crest cell development (GO:0014032)
positive regulation of protein kinase C activity (GO:1900020)
cardiac endothelial cell differentiation (GO:0003348)
cardiac muscle cell myoblast differentiation (GO:0060379)
positive regulation of macrophage proliferation (GO:0120041)
