GO_Biological_Process_2021
ventricular cardiac muscle cell membrane repolarization (GO:0099625)
protein O-linked glycosylation via threonine (GO:0018243)
cardiac muscle cell membrane repolarization (GO:0099622)
membrane repolarization during action potential (GO:0086011)
potassium ion export across plasma membrane (GO:0097623)
membrane repolarization during cardiac muscle cell action potential (GO:0086013)
membrane repolarization (GO:0086009)
hippo signaling (GO:0035329)
cardiac muscle cell action potential (GO:0086001)
metal ion export (GO:0070839)
