GO_Biological_Process_2021
positive regulation of neurogenesis (GO:0050769)
positive regulation of macrophage proliferation (GO:0120041)
cardiac muscle cell myoblast differentiation (GO:0060379)
collagen fibril organization (GO:0030199)
negative regulation of chemotaxis (GO:0050922)
axon guidance (GO:0007411)
positive regulation of cell projection organization (GO:0031346)
synapse organization (GO:0050808)
positive regulation of nervous system development (GO:0051962)
neural crest cell development (GO:0014032)
