GO_Biological_Process_2021
nucleoside triphosphate catabolic process (GO:0009143)
negative regulation of mast cell activation involved in immune response (GO:0033007)
pyrimidine nucleotide metabolic process (GO:0006220)
negative regulation of mast cell activation (GO:0033004)
protein O-linked glycosylation via threonine (GO:0018243)
negative regulation of leukocyte proliferation (GO:0070664)
regulation of mast cell activation involved in immune response (GO:0033006)
pyrimidine-containing compound metabolic process (GO:0072527)
nucleoside phosphate catabolic process (GO:1901292)
nucleoside triphosphate metabolic process (GO:0009141)
