GO_Biological_Process_2021
positive regulation of neurogenesis (GO:0050769)
collagen fibril organization (GO:0030199)
positive regulation of cell projection organization (GO:0031346)
negative regulation of chemotaxis (GO:0050922)
synapse organization (GO:0050808)
positive regulation of nervous system development (GO:0051962)
regulation of synapse assembly (GO:0051963)
negative regulation of establishment of protein localization to mitochondrion (GO:1903748)
generation of neurons (GO:0048699)
positive regulation of DNA demethylation (GO:1901537)
